Dear Requestor

RE: Freedom of Information Request

With reference to your request for information I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information that you have requested. A response to each part of your request is below.

Please note, as of 1st April 2020 the following Clinical Commissioning Groups (CCGs), NHS Mansfield & Ashfield CCG, NHS Newark & Sherwood CCG, NHS Nottingham City CCG, NHS Nottingham North & East CCG, NHS Nottingham West CCG and NHS Rushcliffe CCG, merged to become NHS Nottingham and Nottinghamshire CCG. More information around the new NHS Nottingham and Nottinghamshire CCG can be found on our website - <https://nottsccg.nhs.uk/about-us/our-ccg/>

In the request you asked:

Please can you send me all guidance relating to Do Not Attempt Resuscitation orders issued to GP surgeries by the CCG between 1 February 2020 to the present day (5th January 2021).

The following information was published on NHS Nottingham and Nottinghamshire CCGs TeamNet website which is an online platform for communications that all GP practices within our CCG have access to. This guidance was issued on 30<sup>th</sup> March 2020 and is a joint statement produced by the following organisations, British Medical Association (BMA), Care Provider Alliance (CPA), Care Quality Commission (CQC) and Royal College of General Practice (RCGP).

*The importance of having a personalised care plan in place, especially for older people, people who are frail or have other serious conditions has never been more important than it is now during the Covid 19 Pandemic.*

*Where a person has capacity, as defined by the Mental Capacity Act, this advance care plan should always be discussed with them directly. Where a person lacks the capacity to engage with this process then it is reasonable to produce such a plan following best interest guidelines with the involvement of family members or other appropriate individuals.*

*Such advance care plans may result in the consideration and completion of a Do Not Attempt Resuscitation (DNAR) or ReSPECT form. It remains essential that these decisions are made on an individual basis. The General Practitioner continues to have a central role in the consideration, completion and signing of DNAR forms for people in community settings.*

*It is unacceptable for advance care plans, with or without DNAR form completion to be applied to groups of people of any description. These decisions must continue to be made on an individual basis according to need.*

*This is a joint statement from the following organisations: British Medical Association (BMA) Care Provider Alliance (CPA) Care Quality Commission (CQC) Royal College of General Practice (RCGP)*

There has been no further guidance relating to Do Not Attempt Resuscitation orders issued to GP practices by the CCG between 1 February 2020 and 5<sup>th</sup> January 2021
